intalio

Intalio **Workflow**

Craft Process Excellence

An Intalio **Platform™** Product

Intalio Workflow is an AI-driven, low-code/no-code process management solution that empowers enterprises to design, automate, and optimise the most complex business processes with the capability of agentic AI orchestration for multi-agent workflows.

It seamlessly weaves data and content into workflows to transform organisations into intelligent, agile digital workplaces—boosting productivity, enhancing service delivery, and staying ahead of the competition.

40% increase in back-office' productivity is expected with AI-powered automation.

67% of companies use process automation to streamline and automate daily repeatable tasks.

66% of enterprises report increased knowledge worker productivity through automation.

AI-Driven & Low-Code/No-Code Process Management

Visual Process Modelling
Build templates, manage forms, and handle errors, scheduling, and rules.

Dynamic Business Rules
Apply logic and automate decisions across workflows using configurable conditions and rule-based events.

Advanced Admin Console
Gain full control over users, permissions, and system configurations with auditing, and role management.

User-Centric Portal
Simplify user interactions and task tracking through personalised workspaces.

Custom Forms & Templates
Build dynamic forms, connect with content systems, enable validation, and support multi-source data mapping.

Real-Time Notifications
Keep users informed with timely alerts and status updates through multi-channel delivery and custom triggers.

Agentic AI Orchestration
Intelligently manage complex, multi-agent workflows, for semi- & fully autonomous processes.

Analytics & Dashboards
Track KPIs, visualise performance, and enable filtering, drill-downs, and real-time updates.

Seamless Integrations
Connect easily with third-party solutions and legacy systems using API catalogues and universal connectors.

Why Intalio Workflow?

Low-Code/No-Code Power
Empowers non-technical users to easily build and manage workflows with speed and autonomy.

Cross-Industry Adaptability
Supports various use cases across public & private sectors with a strong intelligent workflow engine.

Ease of Use & Adoption
Multilingual, with easy configuration and intuitive navigation based on the latest UX design principles.

Advanced AI & GenAI
Streamlines processes, assists employees with different techniques for greater efficiency.

360° Case Visibility
Provides a unified, real-time view of all case content, updates, timelines, and actions.

Secure & Stable
Uses tight and granular identity and security practices to ensure proper process access and usage.

Link Process, Data & Content
Weaves content, documents, and data into processes to create one unified journey that drives alignment and control.

Continuous Innovation
Enriched with a roadmap for continuous updates and enhancements in features, usability, and more.

Flexible Deployment
Can be deployed on-premises, in the cloud, or using a hybrid deployment model as per customer's needs.

A Signature Experience

- **Accelerate Process Automation**
- **Create e-Service Excellence**
- **Lower Operational Costs**
- **Ensure Process Governance**
- **Boost Workforce Productivity**
- **Monitor Real-Time Performance**

About the Intalio Platform™

The Intalio Platform™ is an integrated suite of AI-driven products and solutions designed to automate, integrate, and control the journey of data, content, and processes across the enterprise—enabling customers to build and activate operational intelligence.

About Intalio

Intalio is a global leader with over 30 years of experience in intelligent information management software solutions. With seven offices worldwide, Intalio has been digitally transforming enterprises to streamline operations, optimise costs, and accelerate productivity.
